AUTOCOOL® +H: Specifications

Improved Patient Safety

AutoCool®+H supports bar code confirmation of all dispensing and put-away activities for your refrigerated medications. It limits personnel actions through password secured doors.

Complete Inventory Control

AutoCool+H can consolidate your refrigerated medications as a part of a comprehensive, integrated inventory system. It enables easy, centralized control and perpetual inventory management based on par-levels, and supports integrated wholesale ordering.

Enhanced Efficiency

AutoCool integrates with Talyst's AutoVault which leverages AutoPharm® Enterprise to enable complete management of your medication inventory from arrival at the pharmacy to delivery to the patient care area.

AutoCool+H integrates with Talyst AutoPharm Enterprise, the powerful software platform that enables complete management of your medication inventory from arrival at the pharmacy to delivery to the patient care area.

CAPACITY
